

27/03/2015

Number: MIP.0101-732-12/870
Subject: Berth Planning of Vessels Subject to Provincial Directorate of Agriculture and
Agricultural Quarantine Directorate

Since vessels which call MIP to discharge dry bulk and liquid bulk cargoes cause idle waiting time at our berths incase necessary customs documentation is not completed to take discharge allowance and other anchored vessels are obliged to wait.

To prevent such idle waiting time issues, vessels which subject to Provincial Directorate of Agriculture and Agricultural Quarantine Directorate shall not be berthed as long as below procedures are not provided.

All buyers shall complete the necessary documentation requirements such as temporary acceptance, sousplan, or bonded warehouse procedures and have the discharge allowance.

Vessels shall be allowed to discharge once they make all relevant payments and submit the discharge allowance attachment of ARF 02 form. MIP shall apply berth planning after all documentation and allowance procedures are completed.

The implementation shall be valid by 31st of March, 2015.

We hereby request you to inform all members under your company about the new implementation.
